PROFESSIONAL SUMMARY

Full-Stack Developer with 2+ years of professional experience building and maintaining modern web applications using JavaScript, TypeScript, React, and Next.js. Experienced in developing responsive interfaces, REST API integrations, authentication, database-driven applications, and production deployments. Currently building full-stack applications with MongoDB and TypeScript, with a strong focus on performance and maintainable code. Currently pursuing an MS in Computer Science at SZABIST.

TECHNICAL SKILLS

Languages: JavaScript (ES6+) • TypeScript • Python • PHP • SQL

Frontend: React.js • Next.js • HTML5 • CSS3 • Tailwind CSS

Backend & Data: REST APIs • MongoDB • MongoDB Atlas • Supabase • MySQL

CMS & Web Technologies: WordPress • Elementor • WooCommerce • Shopify

Tools: Git • GitHub • Netlify • cPanel • VS Code • Cursor

Software Engineering: OOP • API Integration • Authentication • Performance Optimization • Debugging • Responsive Design

WORK EXPERIENCE

Nexiq Lab | Web Developer | Oct 2025 – May 2026

- Developed and maintained responsive web applications using React, Next.js, JavaScript, and Supabase
- Built full-stack applications with authentication, database integration, REST API connections, and responsive UIs
- Collaborated directly with stakeholders to gather requirements, deliver solutions, and maintain production applications
- Managed deployment, hosting environments, DNS configuration, SSL certificates, and production releases

Logic Tech Pvt. Ltd | Front-end Developer (Intern → Junior → Developer) | Mar 2024 – Jul 2025

- Progressed from intern to full-time developer; built and maintained web applications using HTML, CSS, JavaScript, PHP, and WordPress
- Customized WordPress themes, plugins, and application functionality to meet client requirements.
- Improved responsiveness, performance, and cross-browser compatibility across multiple production projects

SELECTED PROJECTS

ALYOXA-FORGE | Next.js • React • TypeScript • MongoDB Atlas

- Building a full-stack productivity platform using Next.js, React, TypeScript, and MongoDB Atlas, with database-driven application workflows and responsive interfaces.
- Developing responsive, component-based interfaces and data-driven workflows for organizing projects, tasks, and team activity across desktop and mobile.
- Implementing server-side functionality and database-driven application workflows using **TypeScript and MongoDB Atlas**.
- Designing a polished SaaS-style user experience with reusable UI components, responsive layouts, and performance-focused frontend architecture.

Transport Marketplace Platform | Next.js • React • Supabase • Tailwind CSS

- Developed a production-ready transport marketplace platform supporting driver, rider, and delivery workflows with real-time messaging, authentication, and database integration using Supabase.
- Built responsive UIs optimized for desktop and mobile; deployed to production with scalable architecture

Book Publishing Company Website | HTML • JavaScript • Tailwind CSS • SEO

- Developed a 14+ page responsive publishing platform with improved SEO, performance, and conversion-focused layouts
